Notched Skid Flooring System

- A. 3/4" Tongue & Groove Engineered Flooring
- B. Treated Notched Skids
- C. Staggered Flooring
- D. Hand-Driven Spikes at Every Notch

This 8 x 12 steel frame metal-sided Pilot Economy series is one of the lowest maintenance and durable storage sheds on the market and is favored by our commercial clients. This storage shed is built

using Leonard's unique welded steel tube cage system and covered with 29 gauge metal. The notched skid floor system allows the shed to be delivered and moved later.

CANTINA

Create the ultimate backyard experience with the Leonard Outdoor Bar Cantina. This stylish outdoor bar set transforms your patio or deck into a personal oasis that's perfect for game day get togethers, entertaining guests, or

Standard Sizes:
• 6'x8'

simply unwinding after a long day. Designed with durability in mind, the Cantina is built to withstand every season. This outdoor patio bar boasts composite bar top, that is easy to clean, durable and provide generous room for mixing drinks and serving food. The Cantina

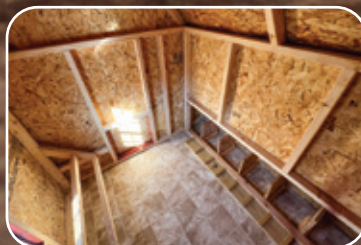

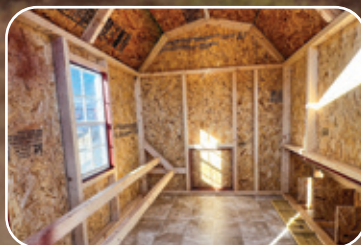

comes with electric cord passthrough in wall making it easy to connect blenders, lighting, or mini refrigerator. Whether you're hosting a super bowl party or enjoying a quiet evening outside, this backyard bar transforms your patio into an all-season entertainment hub.

ANIMAL SHELTERS

Leonard has been making quality animal shelters for over 50 years with the same quality construction and materials used in our storage buildings. From chicken coops, to dog condos, we build a variety of superior structures to shelter your animals from the elements.

LEONARD GOES ABOVE AND BEYOND OUR COMPETITORS

Five Year Bumper-To-Bumper Warranty

Covers defects in workmanship or materials of any kind during the first five years of ownership (normal wear and tear and acts of God excluded).

Vented Ridge

Venting the roof at its peak along the ridge provides superior ventilation. This technique helps prevent damage to shingles and your stored property that may be caused by excessive heat and condensation.

Roof Decking

7/16" OSB is used for roof decking because it is manufactured with heat resistant glues that prevent delamination and warping.

Drip Edge

An aluminum drip edge prevents water damage to roof decking by siphoning off water along the edge of the shingles.

Adjustable Tension Rods

Two adjustable tension rods are installed on every door to prevent the doors from warping as the building ages and is exposed to the elements.

Heavy Duty 6" Door Hinges

Most larger doors are installed with three heavy duty 6" hinges to provide maximum strength and durability.

Aluminum Threshold

To provide additional protection against daily wear and tear, we add a durable aluminum plate to the threshold of each building.

*All Reasonable efforts have been made to ensure accuracy of the information. However, Leonard Truck Outfitters cannot be held responsible for any errors and reserves the right to make changes without notice.

Fasteners

Ring shank coated nails are used throughout sidewall construction to provide maximum holding strength against swelling and contracting caused by changes in the weather and humidity.

Treated Lumber

All Buildings are NOW Built with Ground Contact Treated Lumber: The use of treated lumber for the entire floor system including skids, floor joists, and decking, enabling Leonard to extend a lifetime warranty against decay and termite damage on all treated lumber.

Notched Floor Skids

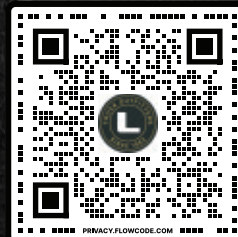

The 4"x6" treated floor skids are notched so the floor joists can be recessed into the skid providing strength and durability. This allows for movement of the building without causing damage to the floor system.

Rent-To-Own

Leonard builds storage sheds and buildings that are safe and affordable. Use our great RENT-TO-OWN program with NO CREDIT CHECK required and get one today! * Rent-To-Own financing is not available on the Animal Structures or Cantina.

Above And Beyond

Leonard's quality-built storage sheds and buildings are fully assembled, shingled, and DELIVERED with 2x4 framed walls, and our patented, pressure treated "Notched Skid Floor System" for convenient delivery setup... we'll even paint the structure to your specifications using quality Sherwin Williams paint!
